## SUMMARY

**Front-End Developer** with two years of proven experience building responsive, user-centered web applications using **React**, **Next.js**, and **TypeScript**. Strong proficiency in modern design systems (**shadcn/ui**, **Material-UI**) and optimizing applications for speed. Recognized for delivering scalable solutions and demonstrating excellent **team collaboration** and **problem-solving** skills in fast-paced, cross-functional environments. Currently pursuing a **Software Engineering degree** while working as an Intermediate Developer.

## TECHNICAL SKILLS

- **Programming:** JavaScript (ES6+), React, Next.js, HTML5, CSS3, TypeScript
- **UI/Design Systems:** Tailwind CSS, shadcn/ui, Material-UI, Framer Motion
- **Tools & Concepts:** Git/GitHub, RESTful APIs, Vite, Performance Optimization

## WORK EXPERIENCE

### Intermediate Front-End Developer at STEMLabs Kano

2025 – Present

- **Optimized application performance, resulting in a 25% reduction in page load times** and enhancing component reusability across multiple projects.
- Demonstrated strong **team collaboration** by integrating **5+ RESTful APIs** with backend engineers, streamlining data handling and improving application performance for large datasets.
- Built and maintained complex, interactive user interfaces with **React and Tailwind CSS**, ensuring responsive design and achieving 99% cross-device compatibility.
- Promoted from Intern to Intermediate Developer within one year for consistent delivery of high-quality, scalable projects, reflecting effective **technical ownership**.

### Front-End Developer Intern at STEMLabs Kano

2024 – 2025

- Developed **10+ responsive web application components** using modern JavaScript frameworks and best practices.
- Utilized **UI/UX design** principles to enhance overall user experience across key features.
- Worked collaboratively in cross-functional teams to deliver assigned features and projects on schedule.

## FEATURED PROJECTS

Project	Summary & Impact	Technologies Used
YC-Inspired Startup Pitch Platform	Full-stack platform where users pitch startups, explore projects, and interact with CMS-driven content. <b>Handled authentication and data for over 50 simulated pitches.</b>	Next.js, TypeScript, TailwindCSS, Sanity CMS, NextAuth
OTIMS E-commerce Website	Full-featured e-commerce platform with product management system, shopping cart functionality, and optimized user experience designed for optimal conversion.	React, Tailwind CSS, JavaScript
Vysk Catering	Modern food ordering platform featuring a vendor management system, customer account functionality, and <b>real-time order tracking integration.</b>	React, Tailwind CSS, API Integration
